GRESHAM'S LETTER.

Received In Hawali.

SAN I RANCISCO May 1 The United I reas correspondent from Honolulu under dute of May 2 says. Yesterday after the meeting of the executive and advisory c uncil, Mr. Hatch amuster of foreign affairs at the dint on the 20th Minister Willis called on him and read a letter from Secretary Cresham, duid February 21st hast which, he said, was sent to Japan by mistake intimating that Mr. I hurston was no longer personality acceptant to the administration at Washington as Hawalin minister, owling to the fact that he had allowed a reporter of the press to read private letters to him from Hono halu concerning the conditions and sentiments there, portions of which wore nade public. These letters contained criticisms upo

the policy of the administration towards Hawni which were not published but came to the knowledge of Mr. Cresham The situation was discussed by the cabi the stration was measured in the attenuor net at less ession and a meeting of the councils was railed at 4 in the afternoor lie session was short and no deliuite action was taken on the matter

other This feature of the president saddress attracted close attention and it was the untidipated rock upon which the enemies of the order hoped that a split in the order and a division in the ranks

mies of the order hoped that a spit in the order and a division in the ranta would octor. The question is likely to be extensive ly discussed during the acadon and may be the subject of a special order of business, but there is nothing at present to denote inharmony or a new party move ment of any magnitude Mr. Traynor advocated the taxation of, all church property and the absolute separation of the church and State Probably an official utterance of the organization on prison contract labor system was made by Mr. Traynor. He opposed it in strong terms and characterized it as maintained solely in the interest of those in charge of prison contracts who secured a direct reward therefor. Mr. Traynor regarded the system as one of the greatest outrages of the present day against free and honest labor. He urged the generating of senti-

tem as one of the greatest outrages of the present day against free and honest is bor. He urged the generating of sentiment against it, as well as the direct working for its abolition in all legitimate ways. While he would abolish the prison contract labor system, Mr Iraynor old not advocate the majutalning of prisoners to idleness at the expense of honest industry.

He would have their labor used by the

He would have their labor used by the He would have their labor used by the state and national governments in extensive irrigation and draining works, where it could be utilized to good advantage with great benefit to the country He favored laws that would totally abolish the present centract system of prison is bor and page it completely beyond any possibility of competition with the labor of free, educated, bonest men, organized or unorganized Concluding Mr Iray nor declared that A P A favors organized labor, sided, not hampered by the government, and the exception of the ballot in local, state and national elections to women

In that way the New York. / and iniofariew-papers mad in ittukoi the American Lines contruct with the Levlerment for carrying the mais to but powerland work how and that the models are to be pur dudida people to be taxed to a large an ount fir the henent of the only him that runs to treat Britain under the American flag. It (with same old Demo et e attack en Almenear shipbuilders and ship owners and is inspired by those persona who want get fire entry for . Eitsbisbilgs The statement's much in the Herd't

the List dringenuous

that after October 12 next, when the contract with the American Line, which is really a I hiladelplua organization, g es into eff of there will be only one in it a wrisk to Europe. There is not 3 to provision in the new unde which this contract was made for shut un lows the number of mails for I my peper work But there will be no need of as many mails as are despatched the present time. For instance, there is a real sent to Burope now on lucs day by a (crman line, but as one of the fast American Time vessels, when the St. I us and St. I and are ready will smill every Wednesday, the mini can be sert on that day instead of luci lay and much burope just as quickly The Cinnot be done my the present time because without the two vessels m w building, the American I he can mly disputch one of its fast vessels every other week But the statement that there will be only one mail a week sent to hurope is not founded on anything contained in the law for in the report of the Post Office Department In the estimates for the next fisca

year in the last report of the I ustmaster (a neral there is an amount of \$502,976 for payments for the entire year to the American line, and there are estimates or \$5 8,967 for payment for carrying the mails by vessels of foreign register, showing charly to any one who take the trouble to look that the government does not contemplate dispatching only one mall a week to I urope

, Congress has already appropriated the money for the foreign service, so that this story seems to have been concocted for the sole purpose of discrediting the efforts of this Government to build up its own shipping and to secure valuable anxiliary cruisers for use in case of war. Within the last two weeks all the newspapers nearly have published the account sent by caffe (Thin London that the approved by the Laws of Maine as legal investments for Maine Savings Banks eight more vessels to its subsidized list and Truste, which are for sale at lowof auxiliary crusture. Only within a lest prices by few days the cable despatches from Berlin brought the information that the German Government had entered into a con tract to subsidize all more fast merchant vessels to be used as auxiliary cruisers

publishes by European Governments, not only for carrying the mail, but for auxiliary naval vesses. Great Britain has been paying for carrying her foreign mails \$1,825,000 4 year, more than and gets in posinge; while, on the other hand,

the last report of Postmaster Ceneral That Distress placely shows a net print of \$1,498,846 in the stom-distribution to this large until pay which the British Government gives to its vessels through the Rank and the New York, the Park and the New York, the Park and the New York, Thod's Pille. when under the British flag, got \$55,000 a year, each as haval subsidy, which money was paid to them whether they were tled up at a wharf all the year or running. In addition to that money they ot mall pay for carrying the mails.

The British government follows, and has long followed, the course of sending her mails by her dwn ships instead of by a faster ship of any, other nation. Sir Henniker Heaton madely strong effort in for lower British ships in order to give

l'arliament a year ago to get the British government to send its mails by the fustcut vessels instead of keeping them its own ships the benefit of the mail pay The correspondent of The Press, while on the steamship New York in Queenstown Harbor, sawi the British government load the mails on the Britannia of the White Star line, although both vessels were scheduled to leave Queenstown

The New York was at her pur in the port of New York two days altered of the Britanau and thus the people of this country were compelled to walt two days lopger than mossary for their foreign mall in order that the slow British yessel should get the mail pay nather than a faster vissel owned by American citizens. That is the way the British troverament looks out for shipping, and yet when the move is made by our Coveragent to protect as yearels in a like manner the Democratic and Mugwamp newspupers raise a how i and seek to create prejudice by adsatzing the The years is of the American Line are

to get postal substitles because they are. under contract is auxiliary cruisdrs in hundreds of thousands of dollars a year to maintain one of its big truisers in commission, but any one of these four vessels of the American Line, all of which must report least twenty knots an hour in order to get any of the subsidy, will be almost as useful as a coulser in ense of war In fact, Admiral Meade as seris that there is no crusser in the navy that could can all the speed of the New York or Pacis for any consider its length of time. So that by the payment of this small, additional might pay the country not only gets magnificent passenger ves sals running at the fastest speed known, Intit has at command a case of wa y duable vessels that can be turned into craisers within a few hours a time

The British government is now paying 75 cents a pound for the conveyance of letters and becomes for papers where as the American government of physics 41 cents a pound for letters and 4 cents a pound for newspapers aver the same route, and in a idition the Beitish govern ment puga naval aubaidiga brance Carmany and other rations favor then shipping in a like manner Why there should be this constant perversion of the futs and attacks on American ship own is and a lipbudders by the Demo cratic and Magwamp mass person the country is incomprehen ible. But the sum towapapers that take this course also approve the Cheveland policy of should be a part of our coast defenses over to British control - Their seems to be in this matter a lack of patriotism, as much as anything else.

A tonic for ladies. If you are suffering from weakness, and feel exhausted and nervous, are getting this and all run down, Glimore's Aromade Wine will down, tilmore's Aromatic wine will bring health to your cheeks and restore you to flesh and plumpness. Mothers, use it for your daughters. It is the best regulator and corrector for all allments peculiar to maldeahood. It promotes digestion, enriches the blood and gives lasting strength. Sold by C. Sweet, West Market square, for \$1.00 per bottle.

RHEUMATISM CURED.
Rheumatism is caused by lactic sold in the blood attacking the fibrous tissues of the joints. Keep your blood pure and healthy and you will not have rheumatism. Hood's Sarsapallia gives the blood vitaity and rohees and tones the whole body, neutralizes the acidity of the blood and thus cures rheumatism.

FEW BUT COSTLY.

Errors Which Caused the Deleat of the Bangors A Lively Ending to the Contest of Thursday-Notes of the Cama It was an ideal ball day yesterday and

hetween neven and eight, hundred prople went to Maj it wood I ark to see a gan c which did not prove an ideal hall game The game lacked snap at times and some bad plays were made which seem d in excusable and proved very costly for the home team. The lawtuckets took a brace yesterday and played better ball than they did the day before The Ban gors on the cortiery played worse bell than on Wednesday, the cases being just reversed between the two game-History repeated itself this year. I nat

season the Bangors won the dist and lost the . cond or the home grounds lutlater they took a milphty brace and teaches the rife age of seventry five this played the game in a manner which was the wonder of the universe. We hope ing statehol the Angil of the Crimen, history will repeat itself in that I ac Lycry but of luck that highly important factor was with the visitors, and they had lots of it. They just reveled a luck and had job lots lett over to farm out Mind you we don't claim that that was the reason they won for we all know that one or two b d very bad plays by the home team were responsible for les 6 Moore made in aglorious must in

> sible for two runs and Heywood got ner yous at the wrong time and made a will throw to second in an attempt to make a double and the was responsible for two runs. Ou star second baseman made the mustake of not putting his feet to gether and thus let a list grounder go through him and that made a difference of a ren. So there you have the game in a nut shell Deady dropped a fly ball which landed

kerchunk in his bands but that did it cost anything Bobby Moore also muffed a fly and that likewise cest nothing Had I ofter been given proper support the game would have been his without a doubt. He did some fine work on atribe outs and watched bases very carefully and give only two bases on balls all

seven bases on balls in the first three to ings. Aft r that he braced up until the ninth when he weakened and Bangor nearly not qualitated the score into was the most exciting inning of the af ternoan and it was boord that the Bin gors would be a ite to pull the game out after all in the face of the r opponents lead. But also and slack! We didn't quite get there

Hope swelled in the beams of the

faithful when Lobert Moone Esquire astonished all by lining out a two bagger with two men on bases, Heywood hav ing priviously sent in Deady by a timely single Ilils made the score 5 to 7 and everybody held his breath when Potter who had made two bits during the game. went to the bat with two men out was given his buse on balls. With R. Moore on second and lotter on first Sharrott wong to the bat as calmly as usual and he wanted a hit, the team wanted a hit, every body wanted a hit but he put it on the ground to Waldron and he was the third man out and the score was not fled Three lively double plays were made

by the l'awtuckets Petter pitched good ball, two of the hits credited the visitors being scratch hits Judd played a star game at short, accepting all of his ten chances and making two bits out of three times at but. His stock took a rise of 2% per cent. One rather amusing in cident was when Wist captured a high fly batted by Heywood and then couldn't find the bag to put out Deady who had started for second and ran back when he saw Wise would get the ball. Wise was on terra firma after his terrestrial obser vations The score Pawtuckets

Sketch of Grand Master A B Farn Yesterday's Portland Press had a good cut of Col. A. B. Farnham, of this city, and the following sketch:

Augustus B Farnham, who has been chosen Grand Master of the Mulne Masons, was horn in Bangor March 10, 1839, and has always lived there. At the outbreak of the war be collisted in the Second Muine Regiment. He was promoted to first Bentenant and captain.

Then, in the Sixteenth Maine, he belarge platform, scating more than a came lieutenant-colonel. He was in the thousand persons. Here the choir and first battle of Bull Run and after that in many of the great battles of the Army of the Potomae. At Five Forks, April 1, 1866, he received a bullet in the left lung, which he still carries. Twenty minutes later the battle was over, and also the

alghting of the Sixteenth. Col. Farnham served on Gay. Bod-

served four years more.

He was sheriff of Penobacot in 1889-30.
Col. Farnham was made a Mason in
Bangor, and joined the St. Andrews

rice Christian Balacaveles price their press Lodge in 1862. He is Past High Priest preparations for these big conventions of Mt. Moriah, Past Commander of St. John's Commandery, No. 2, and Past Grand Commandery, No. 2, and Past Grand Commander of the State. Grand Commander of the State.

THE METHODISTS.

[Continued from Third Page | Thursday afternoon at 2 o'clock devo tional exercises were held. At 2 30 the conference sermon was preached by G B Chadwick, his text being, "Be of good cheer. It is I, be not afraid." At 3.15 the Ministers' Aid Society met and elected the |following officers W | Brown, president, E. H. Boynton, vicepresident, John Thiling, secretary, J.

W. Day, treasurer.

I will go to her the dach as said presently rising from her as it.

My dear? her bushind cried H. structured dear? her bushind cried H. structured dear this hand and grasping her skirt detained her You will not —

Do not he afried? she replied saily as she stoop dear filled she sked life (or head I i is a thing past see iding Rich and post love and even her and till her past play. I will be mereffed as we hope for merery but she can never be friend of ours again, and some pie must till her I will be more fire in a we hope for merery but she can never be friend of ours again, and some pie must till her I will do so and return. As for that man she continued, abscuring sudden a the fair and noble side of her character which she had just exhibited, and which, I confess, had surprised me, for I had not faught her capable of a generusly so an common. As for that man, 'she repeated drawing benself up be her full height, while her eyes spenkled and hur chook grew red, "who has turned better women, I will show him no peersy nor grace if I war have him under my foot I will couse him under my foot I will couse him as I would an adder, though I be crushed just moment investil?

She was sweeping with that word from the room and had nearly reached the door loof of Liquid my volce. Then I called out, "Scayl" just in time. "You will do no good, findam, by going!" I said, ris ling. "You will not him her. She is gone,"
